

User Guides - **My Account**

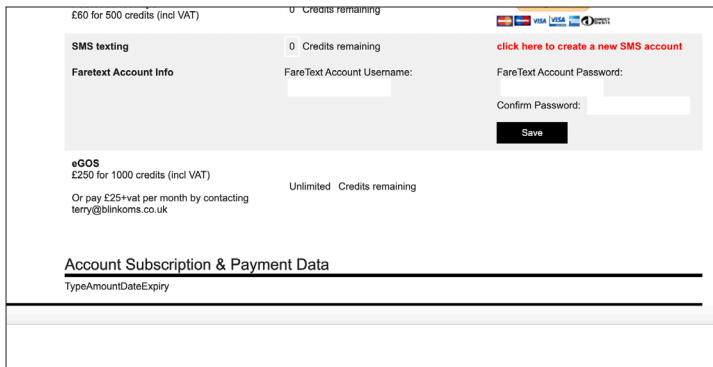

Here you can see who is logged into the blink system. If you would like to change your password or add a phone number at any time it can be done quickly here. You can also view any optional extras you have chosen to add onto to the standard Blink system and the credits available.

Postcode lookups

This can be a really useful time saving option when registering new patients. Postcode lookups can be bought on this page via PayPal.

SMS Messaging

If you would like to start using SMS messaging to contact your patients just let us know and we will configure your system. The Blink SMS functionality is an optional extra and incurs an additional cost and is not part of the core Blink system.

First you will need to register open a FareText account to buy SMS credits. That is done on this page via the 'click here to create a new SMS account' link in red.

When setting up your account the sender id field is either:

- your brand name (which will appear at the top of the text - using this will NOT allow replies)
- your mobile number (which will appear at the top of the text and recipients will be able to reply to this number)

Once the Faretext account has been set up you will receive 100 free credits to get you started. You can then login on your 'My Account' page to view your available credits.

The Blink SMS feature is explained in detail in the User Guide - SMS Text Messages.

eGOS

Blink has an integrated eGOS system that links directly into your PCSE portal, enabling you to manage all of your eGOS needs in one place.

To set up eGOS on your Blink system we need:

- Contractor name and address
- ODS number (usually in the form TP123)
- Practice contact name, number and email address

We will contact PCSE for a PVN number which will link them together.

You can view your available eGOS credits [here](#).
