

## User Guides - eGOS Domiciliary

*Blink has an integrated eGOS system that links directly into your PCSE portal, enabling you to manage all of your eGOS forms in one place.*

---

To set up eGOS on your Blink system we need:

- Contractor name and address
- ODS number (usually in the form TP123)
- Practice contact name, number and email address.

We will contact PCSE for a PSK number which will create a unique link between your Blink system and PCSE.

---

### Creating eGOS Forms

The difference between other GOS forms and a GOS6 is that a PVN needs to be created in advance of any visit to a patient at their premises – their home or a venue such as a care home. **Therefore GOS6 forms are created through the Blink diary.**

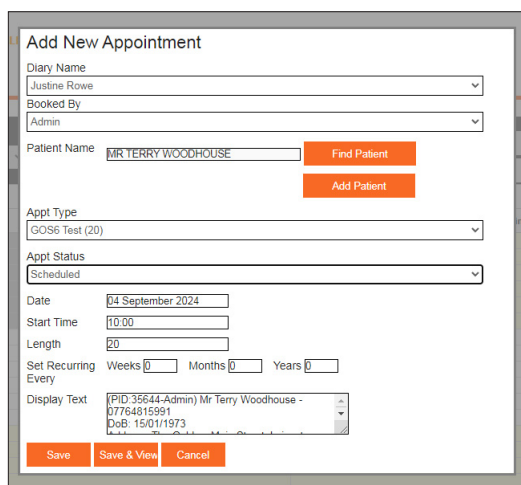

The diary booking will need to be made in advance of the visit.

*Individual in their own home – a minimum of 48 hours in advance.*

*Patients in a venue e.g. care home – a minimum of 21 days in advance.*

## Create a diary booking

On an available cell double click. (Patient appointments cannot be added to non clinic times – greyed out areas) This will open a 'Add New Appointment' window.

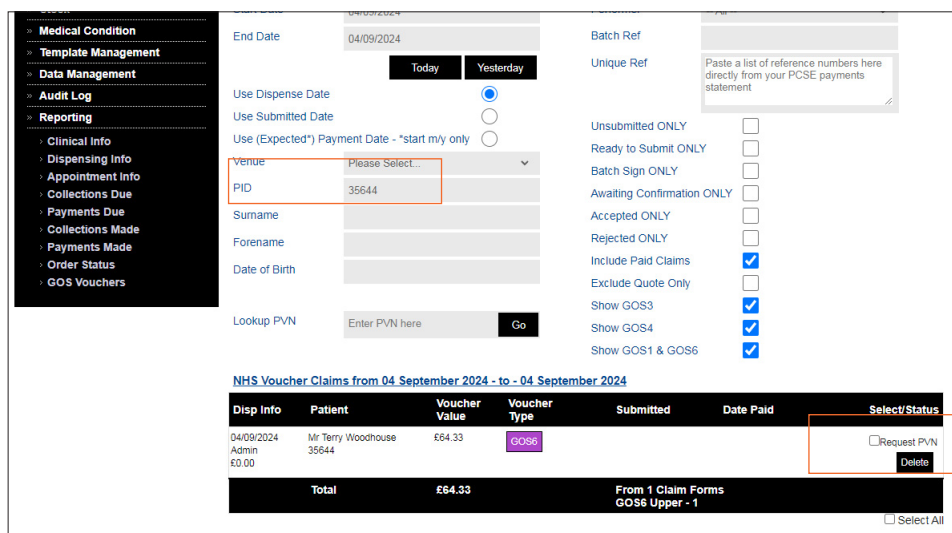

- If you already have a patient selected they will automatically be added to the appointment.
- Or select 'Find Patient' to find a patient that is already on your system, by name, date of birth etc.
- Appointment type choose – GOS6 NHS Eye Test or GOS6 Private PX.
- The date and start time of appointment will already be populated.

*See our User Guide - 'Diary' for a detailed guide on all aspects of setting up and using the Diary module of Blink.*

When you save the appointment you will automatically be taken to the GOS Voucher Submission page.

You will see a GOS6 has been created and along side it a Request PVN tick box.

Disp Info	Patient	Voucher Value	Voucher Type	Submitted	Date Paid	Select/Status
04/09/2024 Admin £0.00	Mr Terry Woodhouse 35644	£64.33	GOS6			<input type="checkbox"/> Request PVN Delete
Total		£64.33	From 1 Claim Forms GOS6 Upper - 1			

You can only request a PVN for one patient at a time or one venue at a time.

When you are automatically taken to this page the PID will be populated in the search filter and you are able to tick the Request PVN box.

If you remove the PID the tick box will be greyed out and you cannot request the PVN. In the case of venues, a venue needs to be selected instead of the PID, you will then see a list all of the patients at that particular venue.

Tick the Request PVN box and click submit. The request will go off to PCSE and will come back with a status of '**pvnready**'. When you open the front of the GOS 6 you will see a PVN code in the top right hand corner of the form. The top section of the form will also be completed automatically.

GOS 6 APPLICATION FOR A MOBILE NHS FUNDED SIGHT TEST 01/19

Please complete this form using black ink and in BLOCK CAPITALS Pre-Visit Notification reference number: P - A M 2 6 9 4 1

Part 1 PATIENT'S DETAILS

Title: MR First names: T E R R Y

Surname: W O O D H O U S E

\*If changed within the past 12 months

Address: T H E G A B L E S M A I N S T L E I C E S T E R

Postcode: L E 7 9 J X

\*If known Date of birth: 1 5 0 1 1 9 7 3 NHS N°: N.I.N°:

Date of last sight test: 2 5 0 2 2 0 2 1 First test Not known

I cannot attend a practice unaccompanied for a sight test because:

You can also view the full details of the PVN by clicking the 'View PVN' button.

### The form and PVN have now been created in advance of the visit.

Before a form is submitted you should check that the information from when the appointment was created and therefore is attached to the PVN is exactly the same as the information on the GOS form, e.g. patients name, address and date of birth. If the form is submitted with a different date of birth or spelling of their name for example, the form will be rejected.

### Updating any patient information errors prior to visit

If you become aware that the date of birth for example, for the patient is actually different to the date of birth you submitted for the PVN, you are able to update this before submitting the GOS form and before the visit.

To do this go *Patient Data -> Patient Information -> Patient Details*, update their date of birth and click update.

Go back into GOS for this patient - *Patient Data -> GOS -> eGOS (This Patient)*. The status for the GOS form will now have changed to Update PVN.

[NHS Voucher Claims from 25 August 2024 - to - 26 September 2024](#)

Disp Info	Patient	Voucher Value	Voucher Type	Submitted	Date Paid	Select/Status
04/09/2024 Admin £0.00	Mr Terry Woodhouse 35644	£64.33	GOS6			<input checked="" type="checkbox"/> Update PVN <input type="button" value="Clear"/>
<b>Total</b>		<b>£98.07</b>	From 2 Claim Forms GOS6 Upper - 1 GOS6 Lower - 1			

☐ Select All

The system is now aware that some of the patients details have changed from when the PVN was requested. Click the Update PVN box and click submit. Refresh the page and the status will change to **pvnready**.

Complete the front of the form. If you have already completed the patient details with eligibility etc. this will be automatically populated onto the form. The patient should sign the form.

When the front has been completed and saved the back will appear ready to be completed and saved. Your system can be set up so that the performer name and number is populated (*see page 10 of this user guide for instructions on how to add performer details*).

Once the front and back have been saved, refresh and the status will change to Submit. Tick this box and press submit.

## When an eGOS has been submitted

The blink system is designed to keep you updated with the progress of your eGOS submissions at all times.

Once a form has been submitted you can check its progress on the 'GOS Voucher Submission' under 'Select/Status'. It will show Submitted, Accepted or Rejected and finally show an expected payment date.

To see any new/updated status press the 'Refresh Status' button.

## Creating PVNs for patients at a venue e.g. Care Home

Before creating a diary appointment for a group of patients at the same venue you need to add the venue to your Blink system.

To do this go to *System Admin -> Users -> Add Venue*.

Add the venue details and press 'Add'

The screenshot shows the 'Add Venue' form within the Blink OMS system. The left sidebar contains a menu with options: Users, ADD Venue, Edit Venue, ADD Doctor, Edit Doctor, Add Staff, Edit Staff, Add Practice, Edit Practice, Diary, Stock, Medical Condition, Template Management, Data Management, Audit Log, and Reporting. The main form area is titled 'Add Venue' and includes an 'Add' button. The form fields are: Venue \*, Company/Association \*, Manager Name \*, Other Contact, Address (Line 1 \*), Town \*, County, Post Code \*, Telephone, Telephone (Mobile), Email \*, Number of Residents, Venue Type \* (Please Select), Recall Period (Please Select), PCT (Please Select), and Venue Notes.

As with a single patient at home the GOS6 forms are generated when creating appointments in the diary, but for multiple patients at a venue, it works in a slightly different way.

Go to diary and create an appointment for a patient but **don't select the GOS6 appointment type**. Choose **NHS or private eye test** and save.

Choose another patient at the same venue and do the same. You now have two appointments on the same date, both of the patients should have the same venue address.

The screenshot shows the diary view in the Blink OMS system for Monday, 30 September 2024. The venue is Terry Woodhouse. The diary shows two appointments for different patients at the same venue. The first appointment is for Mr Tom Jones (PID: 35658-Admin) at 9:10 AM. The second appointment is for Mrs Jean Smith (PID: 1034-Admin) at 10:10 AM. Both appointments are for NHS or private eye tests. The venue address is 1 Main St Leicester M28 1AD.

Time	Appointment
8:00 AM	
8:10	
8:20	
8:30	
8:40	
8:50	
9:00 AM	
9:10	(PID: 35658-Admin) Mr Tom Jones - DoB: 14/12/1977 Address: 1 Main St Leicester M28 1AD
9:20	
9:30	
9:40	
9:50	
10:00 AM	
10:10	(PID: 1034-Admin) Mrs Jean Smith - 01215161970 DoB: 12/11/1929 Address: 1 Main St Leicester M28 1AD

Select All

Go to the GOS Voucher Submission page *System Admin -> Reporting -> GOS Vouchers*.

You need to filter by date and venue in the drop down list.

You will then see the GOS6's for all patients at that clinic on that day.

**An extra step for venues with multiple patients is that you need to go into each of the GOS forms and verify the information at the top of the form.**

Open the form and verify date of visit and approx. time. In most cases the information will be correct and you will simply need to press save.

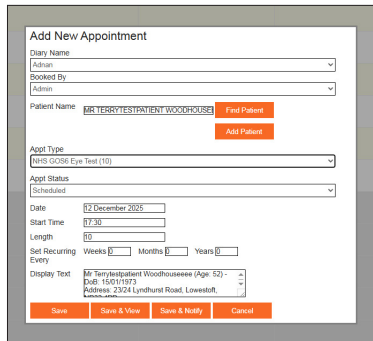

Refresh the page and it will then show the 'Request PVN tick box' Tick the box and submit, it will go off to PCSE and the status will change to **pvnready**. The PVN will appear at the top of the form and it should be the same for each of the patients for the same venue.

## Adding a patient at a venue to an existing PVN

You can add a maximum of 3 patients to an existing PVN up to and on the day of the appointment.

In the Blink diary go to the day you would like to add the patient.

*Before you add the patient to the diary make sure they have the correct venue address as their address.*

Add the patient to the diary, making the appointment type GOS 6.

- Once added you will be taken straight to the GOS Voucher Submission page.
- Image A shows the Select/Status button as 'Request PVN'.
- When you change the venue name to match an existing PVN, Image B, the Select/Status button changes to 'Add to PVN'.
- You should tick this button and submit. The patient will be added to the existing PVN.

Image A

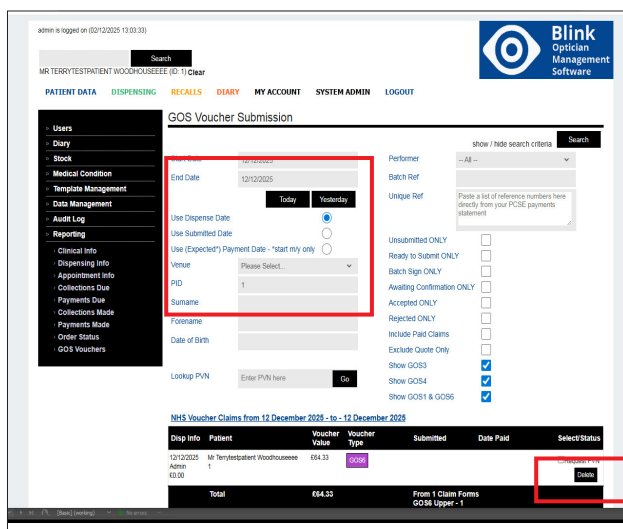

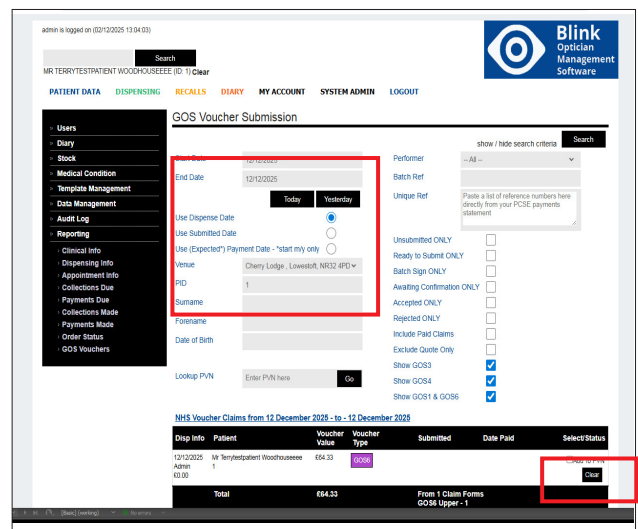

Image B

You can check all patients attached to an existing PVN by entering the PVN into the Lookup PVN box.

*Please note: the GOS 6 will be added to the PVN at the higher rate, so you may need to change this to the lower rate to stop the form being rejected by PCSE.*

## Creating a GOS3 or GOS4

Both GOS3 and GOS4 forms can be created in 2 ways.

### 1 Dispensing

When you save a dispense for a patient an eGOS form will be automatically generated.

- **A GOS 3** is automatically generated when you select the relevant 'NHS Voucher'.
- **A GOS 4** is automatically generated when you enter a value into the 'Repair Voucher' box. The value of the frames and/or lenses should equal this value, making the final dispense total £0.

*To complete any dispense you must select at least a frame, so if the GOS4 is for a frame repair only, you would select 'PX Own Frame', along with either a 'Blank Lens' or specify 'Frame Only'*

### 2 Patient Data -> GOS

In the side menu under 'GOS' you can create a quick eGOS form for the patient you have selected. You can create both quick eGOS 3 and 4 forms.

*This method will also create a dummy dispense which should then be edited to carry on with the dispense. You should **NOT** create a new dispense as this will create another eGOS form.*

You can find a patients dispense under *Patient Data -> Patient Information -> Dispensing History*. Select the 'Edit Order' button to continue with the dispense.

The screenshot displays the Blink OMS software interface. At the top, a notification box from 'highstreet.blinkoms.co.uk' states: 'You are about to generate a sight test and GOS1 form for this patient. Click OK to continue.' Below this, the user is logged in as 'High Street Opticians' on 27/06/2023 at 12:46:22. The main navigation bar includes links for PATIENT DATA, DISPENSING, RECALLS, DIARY, MY ACCOUNT, SYSTEM ADMIN, and LOGOUT. On the left, a sidebar menu lists options: New Patient, New Family, Find Patient, Patient Information, New Examination, and GOS. Under GOS, there are sub-options: Patient Declaration, SMS Patient Declaration, Print GOS2, GOS18, eGOS 1, eGOS 3 (A voucher), eGOS 3 (2x A vouchers), eGOS 3 (E voucher), eGOS 4, and eGOS (This Patient). The main content area shows the 'Patient Summary' form with fields for Patient, ID, DOB, Address, Age, Telephone, Mobile, Alt Tel, email, Patient Type (Default), Venue, Domiciliary Reason, Last Full Examination (Today), Next Full Examination Due (2 years), Notes, Last Appointment (Tuesday, 28 June 2022 @ 12:00 PM), and Next Appointment.

Once eGOS forms have been created there are a number of ways you can view and complete them.

1 *Patient Data -> GOS* - In the side menu under 'GOS' you can view any eGOS forms for the patient you currently have selected – 'eGOS (This Patient)' or you can search for all eGOS forms – 'eGOS (All Patients)'.

2 *System Admin -> Reporting -> GOS Vouchers*.

The screenshot shows the 'Patient Summary' form. On the left is a blue sidebar menu with options: New Patient, New Family, Find Patient, Patient Information, New Examination, GOS (expanded), Patient Declaration, SMS Patient Declaration, Print GOS2, GOS18, eGOS 1, eGOS 3 (A voucher), eGOS 3 (2x4 vouchers), eGOS 3 (E voucher), eGOS 4, eGOS (This Patient), eGOS (All Patients), and Printing & Comms. The main area contains fields for Patient, Address, Telephone, Alt Tel, Venue, Last Full Examination (with a 'Today' button), Notes, and Last Appointment (Tuesday, 28 June 2022 @ 12:00 PM). A 'Quick SMS' button is at the bottom.

The screenshot shows the 'System Summary' dashboard. On the left is a dark sidebar menu with options: Users, Diary, Stock, Medical Condition, Template Management, Data Management, Audit Log, and Reporting (expanded). The main area shows filters for 'Data For:' (Today, Yesterday, This Week, This Month) and a date range (26/06/2023 to 26/06/2023). Below the filters are summary statistics: New Patients: 0, Appointments: 0, Examinations: 0, External: 0, and Red Eye Check: 0.

See our [User Guide - 'eGOS'](#) for a detailed guide on all aspects of using eGOS within Blink.

## Useful eGOS Information

### Patient Declaration Tool

A useful tool is the 'Patient Declaration' tool. You will find this under *Patient Data* -> *GOS* -> *Patient Declaration*. This will store the patient signature so that it can be added to related GOS forms such as GOS 3.

The Patient Declaration Form will open and be automatically populated with the patient details. The patient should read the declaration, sign and save.

*The patient signature is valid for the current eGOS forms for 21 days. They should re-sign the patient declaration form for any future forms and examinations.*

A signature pad can be a simple, cost-effective way of collecting a customer signature. We can recommend this one – 'One by Wacom Small Graphics Tablet'.

To use the patient declaration signature the front of the form needs to be opened and saved. Refresh the window and the 'Assign Signature' button will appear. A message will check that you want to assign the stored signature. Once this has been added the back of the form will appear.

Disp Info	Patient	Voucher Value	Voucher Type	Submitted	Date Paid	Select/Status
13/06/2023 Admin £0.00	Mrs Jean Smith 1034	£23.14	GOS1 <a href="#">View Front</a>			<input type="checkbox"/> Batch Sign (Patient) <a href="#">Assign Sig</a> <a href="#">Clear</a>
13/06/2023 Admin £173.30	Mrs Jean Smith 1034	£41.70	GOS3			

Within the patient declaration tool there is also an option to request a patient signature by email or text. *The email and SMS options will only appear if the patient has an email or mobile number stored in their patient details.*

Whichever method you use to add the patient signature, once the front has been saved the reverse of the form will automatically generate. You will then be able to complete the form or save to complete later.

You will now be able to view both the front and reverse of the form. *Note that once a patient has signed the front of the form it is no longer editable.*

If you do find that you need to change the front of a form you can clear the form by clicking the 'Clear' button under 'Select/Status' and start again but the patient would need to re-sign.

Once the reverse of the form has been completed select 'Refresh Status' (bottom of the page) and the 'Select/Status' will now have a 'Submit GOS 1 via eGOS button'. Select this button and 'Submit'.

*Please note to submit the final form or use the batch sign feature the reverse of the form must be saved first*

## Batch Signing

The Batch Signing feature allows the performer and supplier to sign many eGOS forms at once, for example at the end of each day.

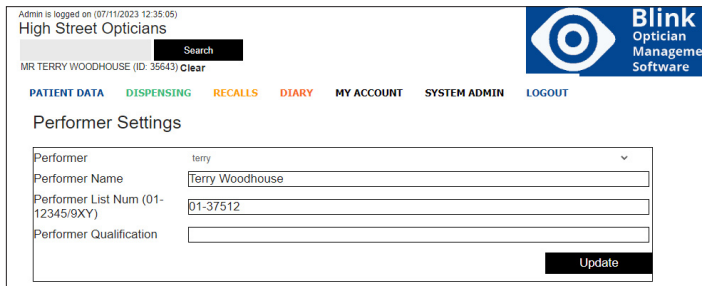

- First the reverse of the forms must be opened, checked and saved.
- Refresh the 'GOS Voucher Submission' page
- **IMPORTANT** - Make sure that the relevant performer is selected

- Select the forms to add signatures.
- Click 'Batch Sign', this will open a signature window, complete the signatures and they will be added to all of the selected forms.
- Refresh the page, using the 'Refresh Page' button and the forms will now be ready to submit.

## Performers list number

You can add a performers 'list number' to the system so that it is reflected onto the eGOS forms. To do this go to: *System admin -> Data Management -> Edit Settings*.

This will open a new page and at the top of the page is the 'Performer Settings' section.

The screenshot shows the 'Performer Settings' page in the Blink Optician Management Software. At the top, there's a header with the user 'Admin' logged in on 07/11/2023 at 12:35:05. Below this is a search bar with 'MR TERRY WOODHOUSE (ID: 35643)' entered and a 'Clear' button. A navigation menu includes 'PATIENT DATA', 'DISPENSING', 'RECALLS', 'DIARY', 'MY ACCOUNT', 'SYSTEM ADMIN', and 'LOGOUT'. The 'Performer Settings' section contains a dropdown menu for 'Performer' (currently showing 'Terry'), and input fields for 'Performer Name' (Terry Woodhouse), 'Performer List Num (01-12345/9XY)' (01-37512), and 'Performer Qualification'. An 'Update' button is at the bottom right of the form.

The first title 'Performer' has a drop down menu where you can select the relevant performer, complete their details and Update to save the details.

For a performer to appear in this drop down menu they must first be added to the Blink system as a user and their 'User Type' must be either Admin or Optom.

For the name to automatically appear on the eGOS form the performer will need to be logged into the Blink system under the corresponding name.

## If an eGOS form is showing rejected

If an eGOS form is rejected it will show as rejected on the 'GOS Voucher Submission' page under 'Select/Status'. If you hover a mouse over the rejected message, it will show the reason for the rejection. You can then rectify the error and re-submit.

## Deleting an unwanted eGOS form

Find the eGOS form you want to delete. Click on the 'Clear' button - this will delete the content of the GOS form. You then need to delete the dispense linked to the form. Once the dispense has been deleted the relevant GOS form will disappear.

## Collecting patients electronic signatures on a tablet

We recommend using a “Wacom One” tablet.

### Setting up your “Wacom One” tablet:

- Plug in your Wacom One
- Go to <https://wacom.com/start/one> - download the exe file (e.g.WacomTablet\_6.4.5-5.exe)
- Run the exe to install the latest drivers
- Restart your computer
- Run the ‘Wacom Tablet Properties’. See below

Image A

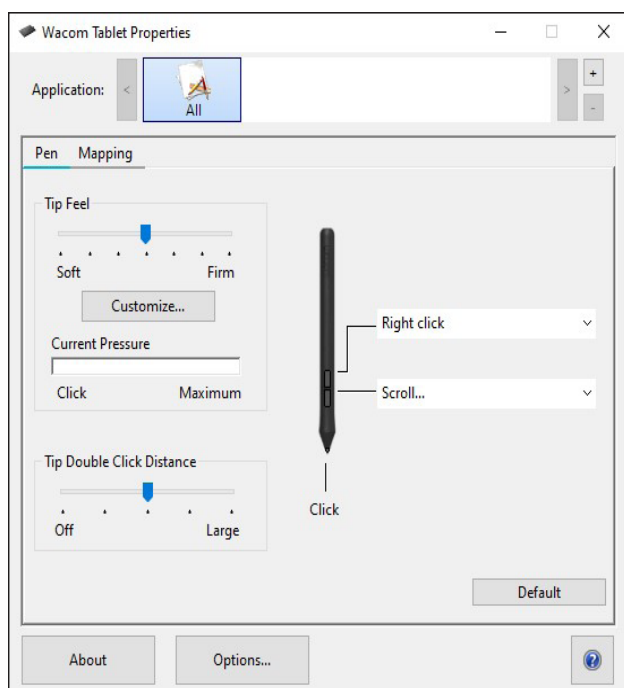

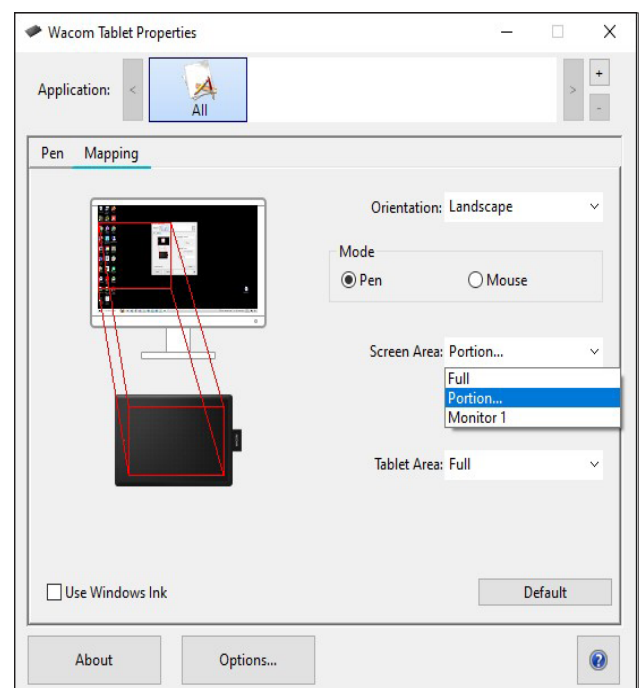

Image B

- Click on the ‘Mapping’ tab. See image B above
- Untick the ‘Use Windows Ink’ checkbox
- Set Screen Area to ‘Portion’
- Map the screen area as shown in fig 2 (you can do this better if you open the Blink Signature screen before opening the properties)
- When you use the tablet, MAKE SURE THE TABLET IS THE RIGHT WAY AROUND (Wacom label on the right hand side)

## Contact

If you need guidance regarding any aspect of Blink you can contact us on the support email, where we will always try to respond within 24 hours:

[support@blinkoms.co.uk](mailto:support@blinkoms.co.uk)

Alternatively you can call us on the support line: 07748 500430

Or call the office phone: 0116 431 8284
